

PIF TICK – What are the 10 steps? How are organisations assessed?

There are 10 key steps to producing trusted health information.

PIF TICK organisations have an annual assessment. This checks the criteria continues to be met and updates members on best practice.

PIF TICK criteria

PIF TICK annual assessment process

Application and criteria mapping

Information producers work with the support of PIF to review and update their processes where required.

Review

After 9 months PIF starts the assessment and support process again, this time looking for areas of change or improvement.

Guidance and support

PIF supports members to improve their processes.

Certification

Once the action plan has been implemented, members can start to use the PIF TICK logo.

Assessment and action plan

PIF conducts an initial PIF TICK assessment and provides an action plan for improvement.
